

DRAGON DICTATE FOR MAC

Simply Smarter Speech Recognition

Dragon® Dictate® for Mac® 2.5 allows users to enter text and control their Mac by voice instead of using a keyboard and mouse.

Turn ideas into text at the speed of thought

so you can communicate more freely and persuasively. Just say words and watch them appear on the computer screen. Tell your Mac what to do, and it obeys your commands.

NEW in Dragon Dictate version 2.5:

- Command and dictation support for Microsoft® Word 2011 (seamlessly combine dictation with mouse and keyboard input)
- Dragon Remote Microphone application turns your iPhone® or iPod touch® into a wireless microphone for use with Dragon on your Mac
- More finely control how Dragon formats text such as dates, times, numbers and addresses
- New voice commands to post to Facebook® and Twitter™
- And more!

Dragon Dictate 2.5 includes everything users need to get started, including a high-quality headset.

TURN TALK INTO TEXT

Instead of a keyboard, use your voice to produce text. Speak your thoughts; then watch your words appear on screen in your favorite Mac applications — up to three times faster than typing. Customize Dragon Dictate for Mac with personal vocabulary and formatting preferences. Create custom voice commands so that Dragon Dictate works the way you work.

BE MORE CREATIVE AND PRODUCTIVE

Dragon keeps up with users' brains, instantly transforming ideas into text -- with no typos. So you can focus on content instead of typing and spelling for higher quality, more detailed results. For optimal convenience, you can:

- Stand up, pace, or cross the room — there's no need to be tethered to your Mac when you use Dragon Dictate with an approved wireless headset. Or choose the new Dragon Remote Microphone application which converts your iPhone or iPod touch into a wireless microphone via WiFi.

MULTI-TASK LIKE NEVER BEFORE

Tell your Mac what to do, like "Reply To This Message" or "Open Microsoft Word" or "Jump To Google™" to work faster and smarter. Create voice commands that automate complex workflows on your Mac.

BUILT FOR MAC

Dragon Dictate for Mac was built to give you the experience you expect from your favorite Macintosh® applications — an intuitive, easy-to-use interface that dramatically boosts productivity. What's more, Dragon Dictate for Mac works with Microsoft Word 2011 as well as your favorite Apple® applications, including Mail, iChat®, iCal®, TextEdit, Pages®, Safari® and many more.

SYSTEM REQUIREMENTS

- Intel-based Mac running Mac OS X 10.6 Snow Leopard or OS X Lion
- 2 GB of RAM recommended • 3 GB available hard drive space
- Internet connection required for registration
- Nuance-approved USB microphone (included with new purchase)
