POWERSCRIBE 360

RADIOLOGY SOLUTIONS

Challenge

Radiology wrestles with spiraling costs, decreasing reimbursements, increased competition, slowing growth of referral networks and its role in improving patient outcomes. Dealing with changes in reimbursement and accountable care organizations call for maximum throughput, immediate access and competitive advantage.

Solution

With PowerScribe® 360, radiology departments can be confident they are using leading-edge technology designed to support best practice and work seamlessly with leading RIS/PACS solutions. PowerScribe 360 enables continuous quality improvement by streamlining the reporting delivery cycle and communicating relevant data through speech recognition, critical test results management, and performance analysis.

"With the reduction in turnaround time with PowerScribe 360 | Reporting, we are able to deliver a faster clinical decision which provides better quality of patient care."

Richard Wiggins, MD, Director of Imaging Informatics, University of Utah Health Care Center Salt Lake City, UT

FEWER ERRORS

PowerScribe 360 | Reporting

Speech recognition meets intuitive design, streamlined workflow, and advanced productivity tools

PowerScribe 360 | Reporting allows radiologists to create and turn around diagnostic imaging interpretations faster than ever before. It is the industry standard for report creation, multisite workflow, data capture and communication. PowerScribe 360 | Reporting allows healthcare facilities and third-party solution providers to integrate applications directly into this extensible platform.

BENEFITS

- Reduces costs and improves productivity
- Increases referring physician satisfaction
- Reduces turnaround time from hours to minutes
- Improves patient care through better clinical documentation

PowerScribe 360 | Critical Results

Automated delivery, verification of receipt, and documentation of critical test results

PowerScribe 360 | Critical Results is the industry-leading solution for Critical Test Result Management (CTRM), automating the delivery, verification of receipt, and documentation of voice communications concerning Critical Test Results (CTRs).

BENEFITS

- Measurably enhances patient safety
- Boosts productivity of reporting and ordering clinicians and enables administrators to act promptly when issues arise
- Ensures critical tests and critical test results are reliably communicated to the ordering clinician
- Automates compliance with Joint Commission, ACR, CAP, and HIPAA rules
- Provides automatic documentation and archive

PowerScribe 360 | Analytics

Insight into every aspect of your business

PowerScribe 360 | Analytics is a powerful solution for analyzing and sharing information that leads to more informed clinical and business decisions. With PowerScribe 360 | Analytics, departments run their business in a data-driven fashion—from modality utilization to physician ordering patterns, through radiologist reporting statistics, throughput, and outcomes analysis.

BENEFITS

- Analyzes years of clinical records
- Supports better medical and business decisions
- Manages costs more effectively
- Provides clinical feedback
- Reduces external IT expenses
- Enhances overall service quality
- Improves customer satisfaction rates

BENEFITS OF POWERSCRIBE 360

- **TIME-CRITICAL RESULT REPORTING**

Improve care quality, increase patient throughput and speed reimbursement.

- **INNOVATIVE TECHNOLOGIES**

Best-practice technology, leading-edge innovation and unmatched integration with key RIS, PACS, modality vendors, and data integrations.

- **HIGH-QUALITY DOCUMENTATION**

Comprehensive reports give the ordering physician crucial information for diagnosis and treatment of patients.

- **HIGHER THROUGHPUT, FEWER ERRORS**

With maximum throughput, radiologists can be more productive and provide better service to referring physicians, therefore improving patient care.

"PowerScribe 360 | Analytics has demonstrated that it is an effective and user-friendly tool that can quickly derive valuable performance metrics and business indicators."

David Mendelson, MD, Medical Director
Radiology Informatics, Mount Sinai Medical Center
New York, NY

About Nuance Healthcare

Nuance Healthcare, a division of Nuance Communications, is the market leader in providing clinical understanding solutions that accurately capture and transform the patient story into meaningful, actionable information. These solutions are proven to increase clinician satisfaction and HIT adoption, supporting thousands of hospitals and providers to achieve Meaningful Use of EHR systems and transform to the accountable care model.

To learn more about how Nuance Healthcare can help you improve financial performance, raise the quality of care, and increase clinician satisfaction, please contact us at 800-350-4836 or visit www.nuance.com/healthcare.
