

Highly scalable, highly automated, one great value.

eCopy ShareScan Enterprise

eCopy ShareScan® Enterprise gives you all Nuance eCopy connectors and extenders in a single package at a compelling price.

With the features, scalability, and flexibility needed to meet all of your current and future workflow requirements in one easy-to-order package, eCopy ShareScan Enterprise is the smart and easy choice for large organizations.

eCopy ShareScan Enterprise

eCopy ShareScan Enterprise makes processing documents easy and automates your important workflows, making complex tasks simple, all in a single solution at a price that makes business sense.

Key benefits

- Easy to install, configure, and deploy with a single point of administration
- Cost effective, comes with all connectors and extenders in a single bundle
- A robust architecture that is scalable to thousands of devices and unlimited users
- Delivers high availability and disaster recovery for maximum uptime
- Provides industry-leading security to protect confidential data and track all scanning activity

eCopy ShareScan Enterprise advantages and benefits

Advantages	Benefits
Easy implementation and deployment	Quick installation and wizard-driven configuration with no scripting. Importing and exporting configuration profiles enables environments to go from concept to production quickly.
Scalability & central management	Robust architecture supports hundreds of devices per server and enables servers to be synchronized and managed centrally—complete with job monitoring and administrative notifications.
High Availability	High Availability ensures critical document workflows meet the strictest service levels and provides automated disaster recovery.
Load balancing	Enables servers to share document-processing load with no additional licenses needed. Provides flexibility to easily increase capacity as needed with virtually no additional cost.
Access the complete set of eCopy application connectors*	Industry-leading connectivity to the most popular email, fax server, document management, and other back-end systems with dynamic, real-time integrations.
Workflow automation with all eCopy extenders included*	Forms processing and barcode recognition extenders save significant document-handling time by automatically processing and routing transactional documents based on the content within them.
Platform extensibility	With wizard-driven connectivity into virtually any data source plus data validation, processing rules, and document delivery, eCopy ShareScan can integrate into virtually any system with no coding. An available ShareScan developer kit also enables connecting and extending eCopy to automate virtually any workflow.

Connector and extenders

The eCopy ShareScan Enterprise bundle includes all optional eCopy ShareScan connectors and extenders*. The following examples are just a few capabilities these add-ons provide to automate capture into enterprise applications and workflows:

Connectors

- Collaboration (email, folder, fax server)
- Cloud storage
- Enterprise content management, document management and archival
- Legal (eDiscovery, case management)
- ERP, CRM, and database
- On-premise or hosted systems

Extenders

- Image clean up/enhancement
- Database/list/lookup
- Barcode and form processing
- Mark-up (bates stamping, highlight/redact)
- Conversion into many formats
- Optical Character Recognition for more than 100 languages

For a complete list of connectors and extenders please visit:
<http://www.nuance.com/for-business/by-product/ecopy/ecopy-connectors-and-extendors/index.htm>

Minimum System Requirements:

- eCopy ShareScan v5.0 or higher
- For the latest supported platforms for eCopy ShareScan, please visit:
<http://www.ecopy.com/support/platforms.htm>

Licensing Information:

- eCopy ShareScan Enterprise must be ordered in a minimum quantity of fifty (50) licenses for one customer.
- Existing customers wishing to add to their existing installation can purchase an eCopy ShareScan Enterprise license, but the features may vary depending on their software version. It is recommended that you run eCopy ShareScan 5.2 or higher as some features are only available in newer releases of software. Newly introduced components are listed above.

*Note: eCopy ShareScan Enterprise does not include the Email and Folder Watching Service, or any licenses of eCopy PDF Pro Office. These licenses can be purchase separately.
